PROFILE

Dedicated web developer with over 3 years of hands-on experience, adept at seamlessly blending front-end and back-end development to create dynamic and user-friendly websites. Noteworthy for a client-centric approach, tailoring each project to exceed expectations. I am confident in my fast learning abilities, work ethic and hard-working attitude

Besides development, I have learned the prospects of team management and requirement analysis. Considering all these aspects, I consider myself a competitive candidate and an asset to any company that shares the idea and vision of growth.

SKILLS

- **Languages:** Javascript , C++ , HTML , CSS
- **Front-end:** React, Redux, MUI, Tailwind, Bootsrap
- **Back-end:** Node, Express, RESTFUL APIs, Socket.io
- **Database:** MongoDB, MySQL
- **Versioning Control:** Git, Github
- **Task Management:** Jira
